THE MORTIMER FAMILIES

JOHN & CINDY MORTIMER

Dear Friends and Family in the Lord,

Is it worth a Soul? Are villages hundreds of miles deep in the jungle worth our time to stop and share the love of God where only the sin of darkness and witchcraft have ruled? What we do in life is what we make of it. Are we Senders or Goers? The lives we touch along life's journey determines so much.

RIVER

We appreciate those of you that have partnered with us over the years with your faithful giving. It's been 40 years that our families have impacted lives here in the Amazon Rain Forest. 100's of Churches and 1,000's of lives have been reached with the Gospel of Jesus Christ through our family and ministry.

Life truly has its moments. Good times and hard. As we go through the trials of life, verses in the Bible become more alive as you not only read the story of what happened, you know the emotion of what happened. Praise God, the Lord will not give us more than what we can handle. So through life's journeys we continue on.

This brings us to Helena (John's mom): A few weeks ago we received information about Helena having a brain tumor. John was able to fly to the USA to be with her as they all found out the gravity of it and how to treat it. At this time she has been going through chemotherapy and radiation treatment. We appreciate everyone that has been holding her up in prayer as Drs. say that she is a miracle for how big the tumor is and what she is still able to do.
